Confirmation of Compliance

27-123050459

page 1 of 1

We hereby confirm that the alloy

Dörrenberg 1.2085 FM

is suitable for use in contact with food and drinking water.

The Specific Migration (SLR) of the critical metals according to page 27 table 1 and 2 meet the requirements of the European Directorate for Quality of Medicines & Health Care „Metals and alloys used in food contact materials and articles“ (2013).

The established conformity applies to all types of food (aqueous, alcoholic, fatty und acidic food) with long-term contact at room temperature an below as well as hot contact up to 100 °C for 2 hours.

In addition, the alloy meets for each element the requirements of page 174 for multiple contact (repeated use): *Result Measurement 1 + Result Measurement 2 < 7 x SRL*.

The detailed analytical results are listet in the test reports:
123050459,123050538,123050539 (Migration in artificial tap water)
123050460,123050540,123050541 (Migration in Acidic Acid Solution 5 g/l)
